

## 2.NBT Number and Operations in Base Ten

### A. Understand place value.

3. Read and write numbers to 1000 using base-ten numerals, number names, and expanded form.

#### Multiple Representations

Group: Alone

Materials: Multiple Representations sheet

Discuss the examples below and explain how to write the numbers from word form and expanded form in standard form. Review how to rewrite 10 ones as 1 ten, and 10 tens as 1 hundred, and so on.

9 tens + 28 ones

five hundred twenty-seven

$20 + 400 + 2$

Issue a **Multiple Representations sheet** to each student. Instruct students to write the standard numbers from the word bank that correctly express each representation. Have students review their solutions by comparing their answers with a partner.
