

Write a number that will make a true number sentence.

1. $322 > \underline{\hspace{2cm}}$

2. $936 < \underline{\hspace{2cm}}$

3. $\underline{\hspace{2cm}} > 820$

4. $189 > \underline{\hspace{2cm}}$

5. $602 < \underline{\hspace{2cm}}$

6. $\underline{\hspace{2cm}} > 1,095$

7. $\underline{\hspace{2cm}} < 845$

8. $506 < \underline{\hspace{2cm}}$

9. $288 > \underline{\hspace{2cm}}$

10. $747 > \underline{\hspace{2cm}}$

11. $\underline{\hspace{2cm}} < 89$

12. $1,193 > \underline{\hspace{2cm}}$

Write a number that will correctly order each set of numbers.

13. Least to Greatest

762, $\underline{\hspace{2cm}}$, 769

14. Greatest to Least

309, $\underline{\hspace{2cm}}$, 303

15. Greatest to Least

559, $\underline{\hspace{2cm}}$, 555

16. Least to Greatest

997, $\underline{\hspace{2cm}}$, 1,000
